**“ We DaJuLong, have one
simple mission:
To make people's lives
better through Dajulong. ”**

Shanghai DaJuLong New Materials Group Co., Ltd was established in 2003, with products covering multiple categories, such as Homogeneous/Heterogeneous flooring, Decorating panels for interior walls, SPC vinyl flooring, etc. By way of strict selecting to qualified accessories and raw materials, continuous product innovation, we have successfully set up a popular brand name globally.

In the future, DaJuLong Group will continue to carry craftsmanship, empower green intelligent manufacturing with technology, and make every product a solid fortress to protect the ecology, continuing to write the legend of the times.

LI xxx
Chairman & CEO

DaJuLong was established in 1996

with four major production bases under its umbrella

Shanghai DaJuLong Group has achieved diversified industrial layout through five specialized production bases, covering multiple industries such as interior decoration materials, outdoor building and advertising materials, and exported to more than 40 countries and regions. For instance, the USA, Australia, Saudi Arabia, Argentina, and so on. And our professional service has already spread all though China.

In the future, DaJuLong Group will continue to uphold the spirit of innovation, deeply cultivate market demand, keep increasing investment on R & D, to feed customers back with better products and excellent service.

We look forward to talking with you face to face for a beneficial relationship start in the future exhibition.

Dajulong was born in 2003

►2010

- 1. Zhejiang factory (Kaman) laid the foundation and was established
- 2. Successfully provided commercial flooring for over 60% of the Shanghai World Expo pavilions

About us

►2003

Shanghai factory laid the foundation and was established

►2004

Foshan factory successfully put into operation

►2008

First participation in MosBuild exhibition in Russia

►2009

First participation in BigFive exhibition in Dubai, UAE

►2011

First time awarded the title of "High tech Enterprise"

► 2012

1. First time obtaining the "Shanghai Famous Brand" logo
2. Become a member of the Shanghai Chemical Building Materials Industry Association

► 2013

1. Won the "Top 10 Brands in China's Elastic Flooring Industry" award for the first time
2. Donate living materials and award honorary plaques to the Ya'an earthquake stricken area

► 2014

1. Obtained 9 invention patent certificates
2. Participated in the "Welfare Culture Enters Every Household" public welfare activity and received the "Contribution Award for Welfare Culture Construction" from the China Social Welfare Association
3. Our chairman has been awarded the titles of "Meritorious Figure" and "Outstanding Entrepreneur" in the Chinese elastic flooring industry by the China Association of Building Decoration Materials.
4. Obtain the "High tech Enterprise" certificate again

► 2015

1. First time awarded as "China Elastic Flooring Production Base"
2. Passed and obtained ISO9001:2008 and ISO14001:2004 certifications
3. Participated in the development of the national standard GB/T-11982 for the elastic flooring industry
4. First participation in SURFACE Flooring Exhibition in Las Vegas, USA

► 2016

1. First CE certification obtained
2. Once again awarded the annual "China Elastic Flooring Production Base"
3. First participation in BIG5 Flooring Exhibition in Mumbai, India

► 2017

- Participated in the development of the national standard GB/T-11982 for the elastic flooring industry

➤ 2018

1. Hosted by DOMOTEX Asia/CHINAFLOOR
At the Asian flooring industry event, our company was awarded the "Outstanding Contribution Award for 20 Years"
3. First time participating in the Canton Fair exhibition
4. Successfully aired our company's promotional advertisement on CCTV

➤ 2019

1. Achieved FloorScore certification in the United States
2. Once again awarded the Outstanding Collection of Voluntary Blood Donations in Jinshan District, Shanghai
Certificate of Honor for Sports
3. Our chairman was awarded the "70th Anniversary Home Building Materials Industry Award" for the founding of the People's Republic of China
Honorary title of "Outstanding Person in the Industry"

➤ 2020

1. Anhui factory (DeLong) laid the foundation and was established
2. During the Wuhan epidemic, our company made every effort to provide free disaster relief goods and materials. Awarded the Anti Epidemic Pioneer Trophy and Certificate
3. Second participation in DOMOTEX flooring exhibition in Germany
4. Established the Big Dragon Business School and successfully entered through live streaming
Teaching courses
5. Won the "National Building Craftsman Award" for the first time
6. Won the honor certificate of "Top 30 Chinese Flooring Enterprises" for the first time

➤ 2021

1. Achieved FloorScore certification in the United States
2. Once again awarded the Outstanding Collection of Voluntary Blood Donations in Jinshan District, Shanghai
Certificate of Honor for Sports
3. Our chairman was awarded the "70th Anniversary Home Building Materials Industry Award" for the founding of the People's Republic of China
Honorary title of "Outstanding Person in the Industry"

DAJULONG's dream continues to grow

DaJuLong Group has five major production bases under its umbrella, which involved in different fields, and regional distributions can enhance production efficiency and market coverage.

At present, the products of DaJuLong Group are sold all over of China, and also exported to 53 foreign countries and regions worldwide.

Why Dajulong?

1. One Stop Solution

We provide end-to-end solutions, from design and manufacturing, to ensure a perfect experience for our customers.

2. Unmatched Expertise

With over 20 years of experience, we have honed our skills in multiple industries such as hospitals, education, and offices to meet the unique needs of each industry.

3. Global Reach

With over 20 years of experience, we have honed our skills in multiple industries such as hospitals, education, and offices to meet the unique needs of each industry.

Choose DaJuLong for integrated, customized and forward-thinking solutions to enhance your experience of spaces transforming.

Why Dajulong?

4. Commitment to Quality

At Dajulong, we adhere to the highest quality standards in everything we do, from the materials we use to the final polishing of each project.

5. Large scale Production & Diverse Capabilitise

At Dajulong, we adhere to the highest quality standards in everything we do, from the materials we use to the final polishing of each project.

6. Trusted Lifelong Partner

Our customers trust dajulong for a long time, not only because of the high-quality products we provide, but also because of the continuous support we provide.

Choose DaJuLong for integrated, customized and forward-thinking solutions to enhance your experience of spaces transforming.

The Road to Green Factory

Our Factories

**Shanghai Dajulong
Zhengjiang Kaman
Xuancheng Delong
Foshan Jiangwei**

Dajulong Group reshapes the intrinsic properties of materials through technological optimization, deeply planting the roots of environmental protection in the industrial context. Through iteration, it constructs a symbiotic coordinate system of humanistic temperature and ecological ethics, and achieves diversified industrial layout through four specialized production bases, covering multiple industry fields such as interior decoration materials, outdoor building materials, and outdoor advertising materials.

Our Factories

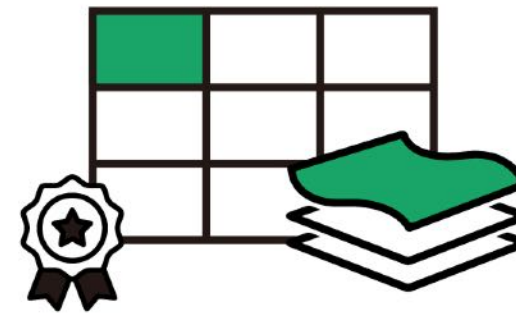

Our Factories

Shanghai Dajulong

The cradle of commercial roll flooring

DajuLong[®]

Shanghai Dajulong was built in 2003 and covers an area of 150 acres. The factory holds symbolic significance in the development history of the group and is the first PVC flooring factory of the group. The factory mainly produces PVC commercial roll flooring and has multiple international authoritative certifications and honorary certificates.

Our Factories

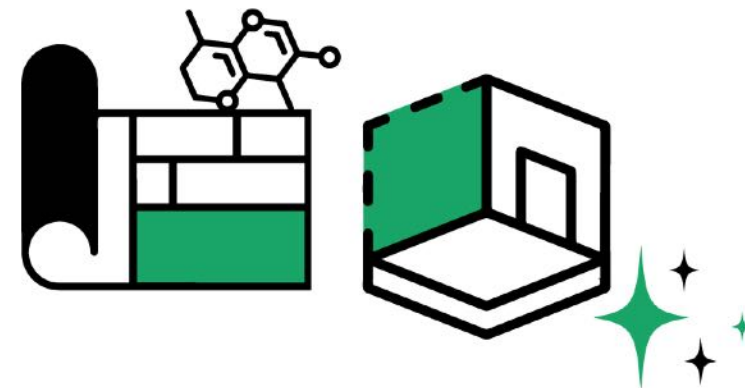

Our Factories

Zhengjiang Kaman

**Innovative pioneers in commercial
flooring and wall panels**

DajuLong[®]

Zhengjiang Kaman was built in 2012, covering a total area of approximately 300 acres. It has the largest Tongtong production line in Asia and possesses multiple technological barriers. Producing over a hundred types of products, applied in multiple fields, covering floor and wall decoration materials.

Our Factories

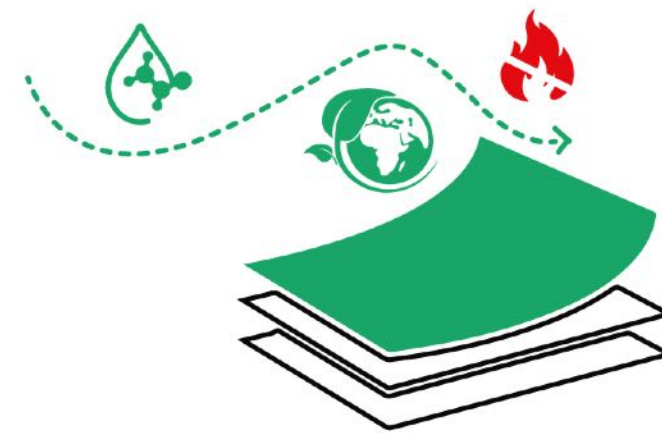

Our Factories

Xuancheng Delong

The leader of new wall panels

DajuLong[®]

Xuancheng Delong covers a total area of approximately 800 acres and serves as a new materials research and development headquarters as well as a complex for future industries. The factory specializes in producing multiple new green building materials such as A-grade fire-proof medical board, moisture-proof fiber cement board, ALC board, etc.

Our Factories

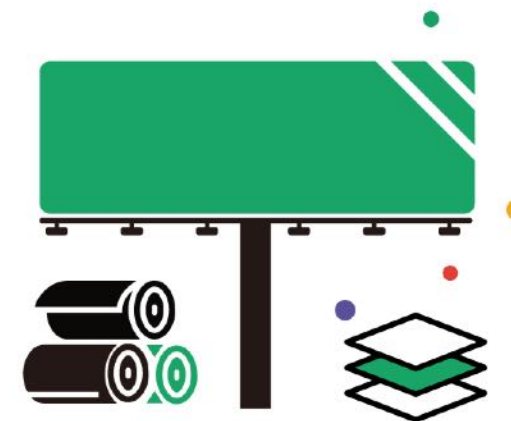

Our Factories

Foshan Jiangwei

Pioneer in the field of advertising materials

DajuLong[®]

ZThe manufacturing center of South China, where the group is building an industrial complex, is simultaneously creating a characteristic industrial park of "advertising materials+commercial flooring". As a key part of the group's strategic layout, the factory is based in Guangdong and radiates to the Southeast Asian market.

Shaping the spaces we Live, Learn, work, Move & Heal

HOSPITAL

Dajulong has long been committed to providing safe, hygienic, and easy to maintain ground solutions for medical institutions, ensuring comfort and patient health and safety.

EDUCATION

Dajulong flooring, with its high-quality materials and exquisite craftsmanship, provides beautiful and durable ground decoration materials for campuses.

WORK

Choosing floor coverings in the workplace can create a sense of identity for employees and provide a safe working environment.

BUSINESS

Dajulong, with its high wear resistance and strong stain resistance, easily handles high-frequency use; Unique textures and colors enhance the spatial style and help upgrade the image of commercial brands.

PUBLIC

Using environmentally friendly materials with excellent anti slip and fire resistance performance; Modular design facilitates installation and maintenance, creating a secure environment for public places.

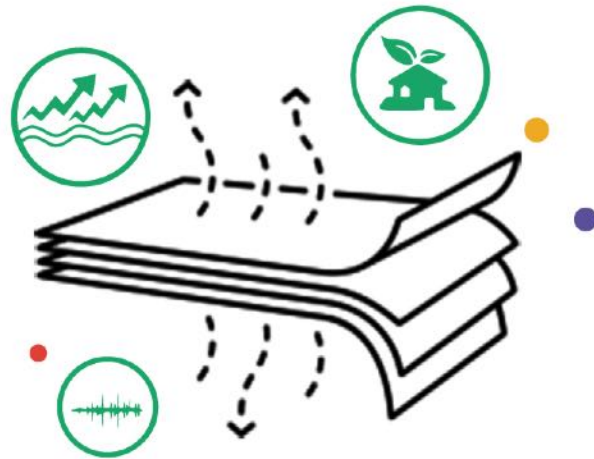

INDUSTRY

Load bearing and impact resistant, special coating for corrosion prevention and anti-static function, laying a solid foundation for production safety.

Work Projectss

Environmental protection and health are the green principles we adhere to. Commercial spaces will be bathed in unprecedented peace and tranquility, I deeply feel a sense of belonging that is closely related to the concept of environmental protection and health.

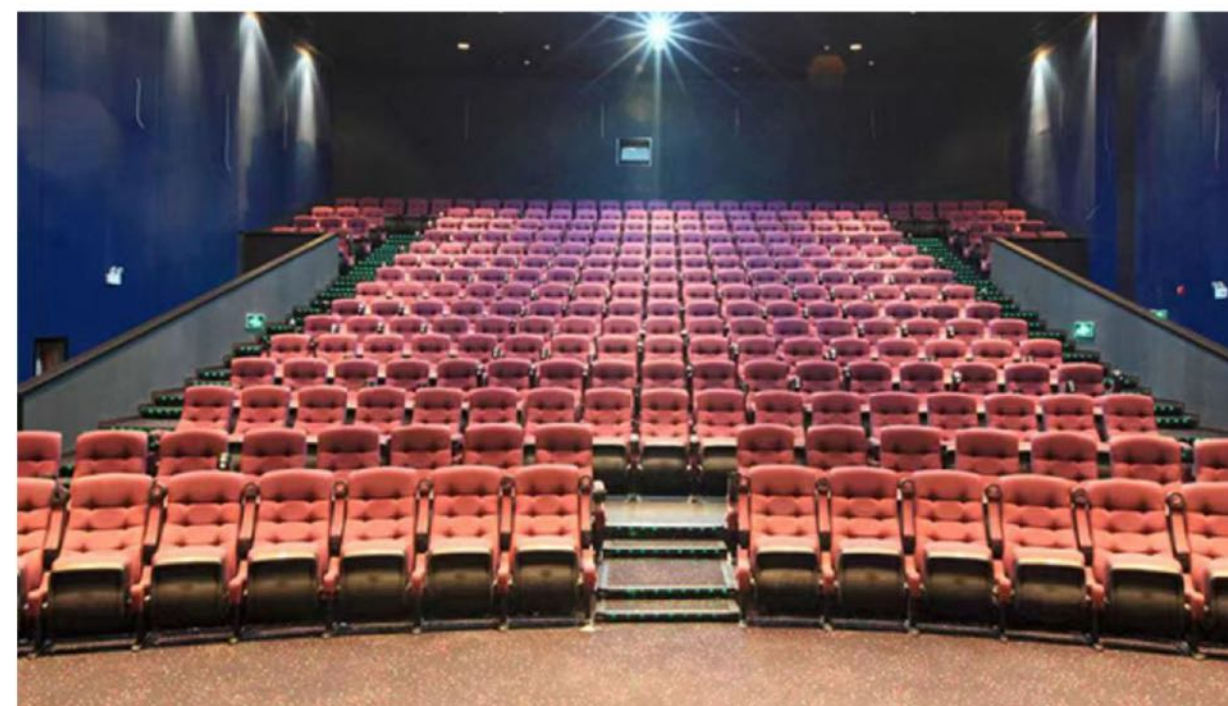

HOT SPRING HOTEL

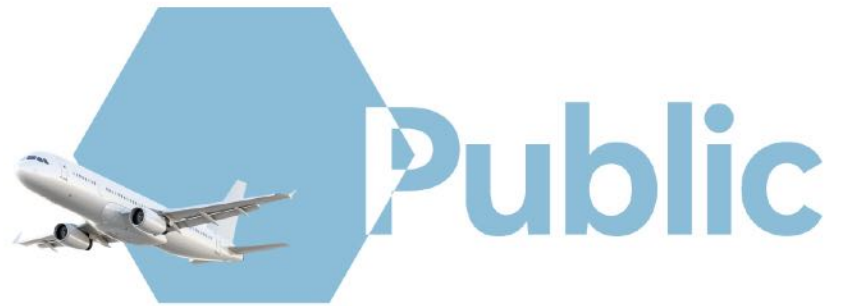

Zhuangyuanhong Ecological Hot Spring Hotel is located in Shangcai County, Zhumadian, Henan Province. The hotel is surrounded by beautiful surroundings, with scattered bamboo forests and unique flowers and trees throughout the year. The building has an exquisite and elegant appearance, and the hotel is fully equipped with dining, banquets, conferences, guest rooms, hot springs, barbecue, lawn weddings, outdoor training and other projects.

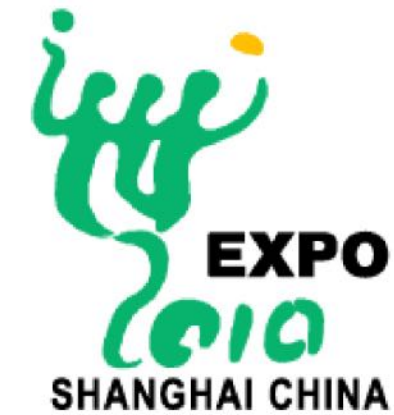

CHINA INTERNATIONAL CINEMA

China Film Group is a company with the right to import films nationwide. Since its establishment, China Film Group has carried out business restructuring, asset integration, and property rights system reform in accordance with the requirements of modern enterprise systems, gradually achieving unified development of resources and unified management of personnel and finance. At present, China Film Group has 15 wholly-owned subsidiaries, with nearly 30 main holding and participating companies, 1 movie channel, and total assets of 2.8 billion yuan.

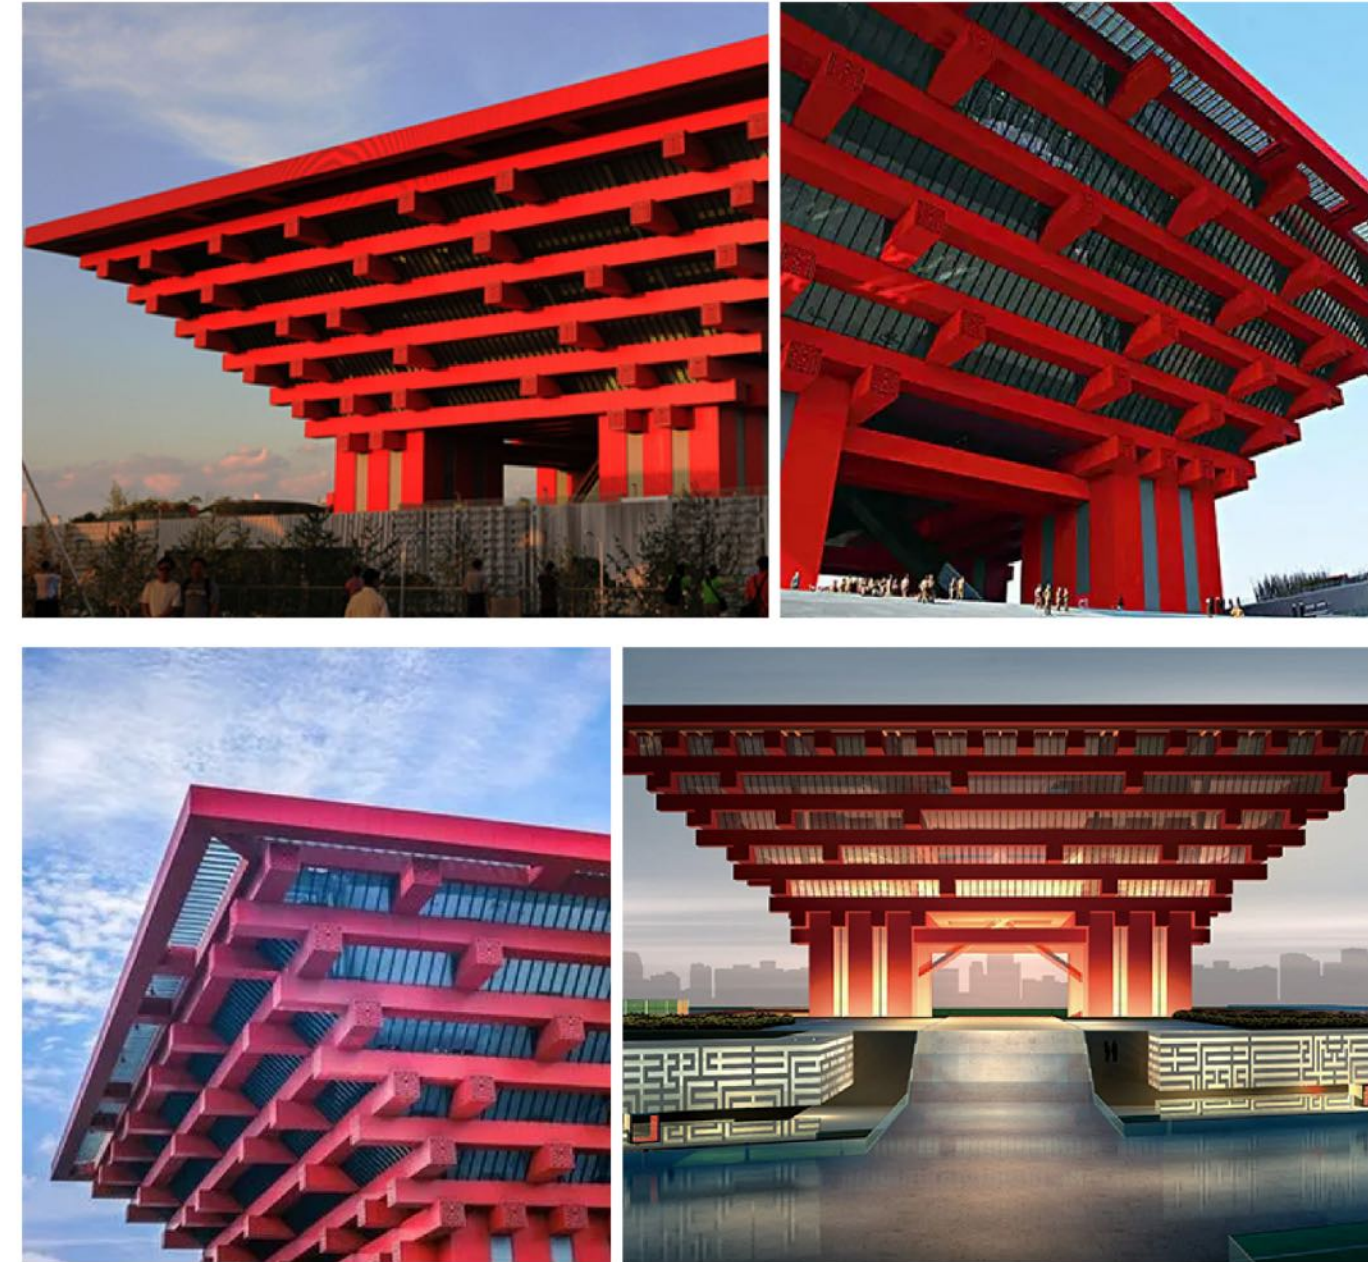

**Whether it is the use of high standard environmentally friendly materials for pedestrian flooring, it has passed authoritative safety inspections,
Dense airport stations,
Still focused on experiential shopping malls,
We can create a secure environment with excellent performance and flexible design.**

THE 2010 WORLD EXPO

The Shanghai World Expo Exhibition and Convention Center is a high-level, modern, and international exhibition venue with advanced facilities, reasonable layout, energy conservation and environmental protection, convenient transportation, and complete functions. After completion on September 30, 2009, it became one of the venues for the Shanghai World Expo. The total construction area is approximately 129000 square meters, consisting of five exhibition halls.

**Load bearing and impact resistant,
special coating for corrosion and oil
resistance,
Equipped with anti-static function to
ensure equipment operation,
Building a solid foundation for pro-
duction safety,
With leading product quality and in-
novative strength.**

OPTOELECTRONIC INDUSTRY PARK

The AVIC Optoelectronics Civil Aircraft and Industrial Interconnection Industrial Park project, as one of the first provincial-level key construction projects in Luoyang City in 2024, has a total investment of 1.698 billion yuan and a planned construction area of nearly 180000 square meters. The project focuses on core areas such as civil aviation, data communication, and industrial healthcare, with the goal of building a full industry chain ecosystem. It will create a comprehensive industrial park that integrates design and research and development, production and manufacturing, parts processing, equipment assembly, and intelligent warehousing and logistics, providing important support for regional industrial upgrading.

SHANGHAI BYD COMPANY LIMITED

Shanghai BYD Co., Ltd. was established on August 12, 2002.

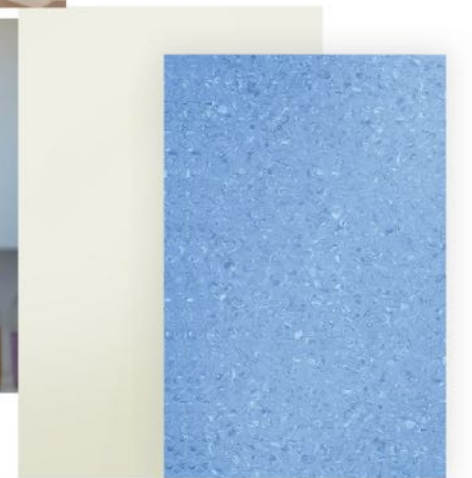

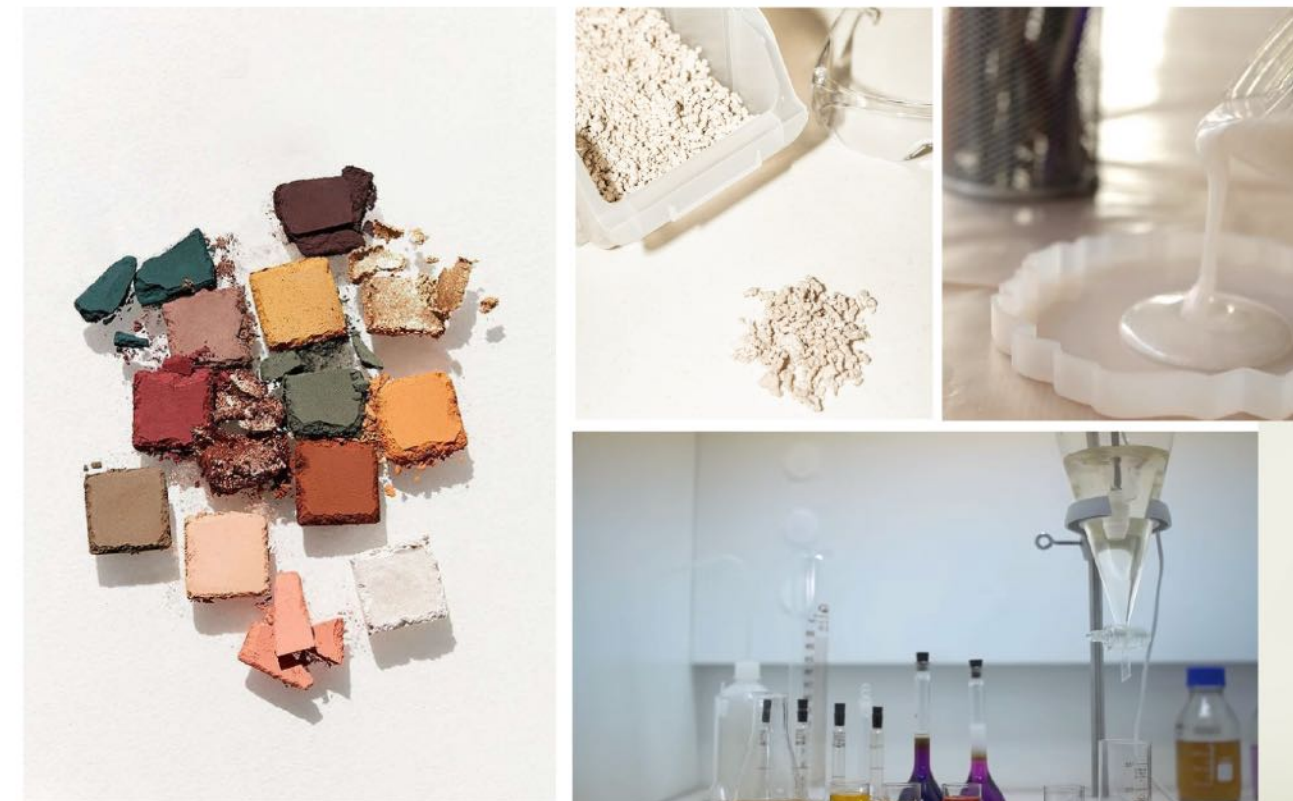

Ecological

Philosophy of Tracing

Renewable Raw Materials

Dajulong has always adhered to the concept of green development, focusing on innovative technologies, carbon reduction production, green products, and other aspects.

Pay attention to the full lifecycle management of products, actively explore the sustainable development path of "green design, green production, green application, and recycling", integrate cost reduction and efficiency improvement, green low-carbon and high-quality development into multiple links such as product research and development, green production, green application, and raw material recycling, and contribute to the sustainable development of ecology and economy. Actively explore the leading path of "carbon peak and carbon neutrality".

We set high standards for ourselves & our work.

Dajulong is proud to have received multiple awards and certificates, demonstrating our commitment to quality and excellence. These recognitions reflect our commitment to upholding high standards and providing high-quality products and services. We value these achievements and are committed to continuing our tradition of excellence.
